

Amersham Maths Trail - Extensions

P. Old Town Parking

- 1. River Misbourne**
- 2. St Mary's Church**
- 3. Memorial Garden**
- 4. Market Hall**
- 5. Museum**
- 6. Methodist Chapel**
- 7. Alms-houses**
- 8. Old Grammar School**

Map supplied courtesy of Google Maps for Educational use only.

- 1. The Misbourne River** - Before taking the river walk, have a look at the car parking charges on the sign. How much would it cost to park your car here for 6 hours?
- 2. St. Mary's Church** - Take a look at the main sign in the grounds of the Church. How much time would you have to wait between the start of the Parish Communion and Evensong?
- 3. Memorial Garden** - Find the model of HMS Dreadnought. How much would 5 of the 12inch shells weigh?
- 4. Market Hall** - Have a look for the pump on the wall and note down which year it was installed. What is the biggest and smallest number you can make from these 4 numbers.
- 5. Amersham Museum** - On the wall near the museum you will see a post-box. How much time passes between the collection on Saturday and the next collection?
- 6. Methodist Chapel** - Ask your adult to stand next to the Chapel. Estimate how high the Chapel is using the adult height as your measure. If your adult is 2m tall, how tall would the Chapel be?
- 7. Drakes Almshouses** - Look carefully at the writing on the plaque. The 'f' and the 's' look very similar. Count up the number of 'f's and 's's if you can. It can be quite tricky!
- 8. Old Grammar School** - How long ago was the Old Grammar School Built?
